

Errata

These are corrections to previous LoARs.

March 2016

Avacal

Lochlainn Dubhghlas. Device. Per pale argent and vert, a badger rampant sable marked argent and a badger rampant contourny argent.

Registered in March of 2016 as a badge, a timely correction had been issued on the Letter of intent indicating that it was intended as a device.

April 2016

Northshield

Hróaldr Torfason. Device. Sable five swords inverted three and two Or, a chief invected argent.

Blazoned when registered as *Sable semy of swords inverted Or, a chief invected argent*, we are reblazoning this to be more explicit about the number of charges as there is a DC between five charges and semy of charges.
