

THE FOLLOWING ITEMS HAVE BEEN REGISTERED:**AN TIR**

An Tir, Kingdom of. Order name Ordo Vitae and badge. Checky Or and argent, on a lotus blossom in profile sable a flame argent.

The field, *Checky Or and argent*, is allowed to the submitter via the Existing Registration Allowance.

Beornwynn of Stanleia. Device. Per bend sinister wavy azure and ermine, a plate.

This device does not conflict with the badge of Bruce Draconarius of Mistholme, (*Fieldless*) *An orb argent*. By precedent "there is at least a DC between an orb and a roundel" [Cristina Volpina, 08/2016, A-East].

Edouard de Saverne. Device. Per chevron vert and gules all semy of hop cones, a chevron argent.

Artist's note: Please draw slightly fewer and larger hop cones to increase their identifiability.

Eoghan Ua Cléirigh. Name and device. Sable, a double-headed phoenix Or between three triquetras argent, a chief triangular erminois.

Commenters questioned whether this name needed to use markings consistently throughout, as has been our standard practice for Irish Gaelic names. The given name Eoghan appears in Irish primary sources both with and without a diacritical mark over the o. In fact, this exact name with these markings appears in the Annals of the Four Masters dated to 967. Therefore, we do not need to add a diacritical marking to the given name in order to register it and may register this name as submitted.

Nice 10th century Irish Gaelic name!

Finn Ua Cléirigh. Name.

Nice Irish Gaelic name for 900 to 1200 CE!

Gaius Sokolov. Name and device. Quarterly vert and gules, in saltire two feathers argent, a bordure Or.

Gaius was originally documented as the submitter's legal name, but they need not rely on the Legal Name Allowance. ffride Morelle found the Latinized Polish given name *Gayus* dated to 1427 and SENA Appendix A says that in Polish, *i/y/j* switches are common; this gives us the plausible 15th century Latinized Polish spelling *Gaius*.

This name combines a Classical Roman name documented in Poland and a Russian byname, an acceptable lingual mix per SENA Appendix C.

Georgei Dmitreev syn Kirill. Device. Per bend sinister azure ermined argent and argent, a mullet of six points azure within and conjoined to an annulet gules.

SENA Appendix I1 says, "if there are no central ordinaries or central charges, but there are non-ordinary charges in chief, in base, in canton, or in orle, they are the primary charge group." As such, these mullet and annulet in this submission should be considered co-primary charges.

Georgei Dmitreev syn Kirill. Badge. (Fieldless) A mullet of six points azure within and conjoined to an annulet gules.

Halawa bint Tariq ibn Salih al-Wadi. Name and device. Azure, a serpent involved argent within a bordure argent pellety.

Submitted as *Halawa bint Tariq bin Salah al-Waddi*, this name is not constructed correctly. First, during the SCA period the word *bin* is not used in Arabic contexts; it is solely found in Turkish names. Instead, the word *ibn* is used in Arabic names. [L/ucjan Maciej Niemira, 01/2023, A-Atenveldt] Second, the submitter documented the name *Salah* as a titular name. However, the full titular name is *Salah al-Din*. No documentation was provided for the use of the element *Salah* on its own, nor could any be found in a language compatible with the remainder of the name. Evidence was found for the similar-sounding Arabic name *Salih*. Third, no evidence was found for doubling the consonant *d* in the byname *al-Wadi*.

Though the submitter allowed no changes, they have expressly consented to correcting this name to *Halawa bint Tariq ibn Salih al-Wadi* for registration.

This device does not conflict with the device of Lorccan mac Dubhghaill, *Azure, a snake nowed argent and a bordure argent semy of annulets sable*. There is a DC between serpents involved and serpents nowed, and another between roundels and annulets.

Artist's note: Please draw the bordure thicker to allow more room for the roundels.

Haukr inn oði. Name.

Submitted as *Haukr inn oði*, no documentation was provided for the byname. The Old Norse byname 'the mad' is *inn oði*, not *inn odi*; the letter *d* is not an acceptable substitute for the letter *ð*. We have therefore changed this name to *Haukr inn oði* for registration.

Jameson Wheeler. Device. Per pale gules and vert, a hound's head couped and an axe reversed, on a chief argent an orca naiant contourny proper.

Ljótr Einarsson. Household name Eisenburg and badge. Argent, in pale a castle gules and an anvil sable.

Submitted as *Eisenschloss*, this name is not constructed correctly. While the German word *schloss* is one of the words modernly used for castles, no evidence was provided that this use was period. In our period, its use was more for a manor house or small chateau and as such were named for people or places. *Eisen* 'iron' is neither of those things. However, the suffix *-burg/borg* was used to describe castles and other fortified structures. There are several references dated as early as the mid-13th century to German places called *Ysenburg* in various spellings. With the submitter's permission, we have changed the designator of this household name to the attested *-burg* to create the name *Eisenburg*.

In this German household name, *-burg* is a designator meaning 'castle' and *Eisen-* 'iron' is the substantive element. Palimpsest is directed to add this new German household designator to SENA Appendix E4.

Muirenn inghean Uí Cléirigh. Name.

Under standard Gaelic grammar, a given name beginning with C should lenite following the name element *inghean Uí*. However, Brian dorcha ua Conaill has provided multiple examples from the various Gaelic Annals in which lenition was not applied to a C following *inghean Uí*. Therefore, per the guidelines given on the July 2017 Cover Letter, this name can be registered as submitted.

Onóra inghean Uí Cléirigh. Name.

Under standard Gaelic grammar, a given name beginning with C should lenite following the name element *inghean Uí*. However, Brian dorcha ua Conaill has provided multiple examples from the various Gaelic Annals in which lenition was not applied to a C following *inghean Uí*. Therefore, per the guidelines given on the July 2017 Cover Letter, this name can be registered as submitted.

Paullus Quinctilius Barbatus. Name.

Nice Roman name from the first century of the Empire!

Robbin Bowring. Name and device. Azure, three hedgehogs statant to sinister one and two Or.

Saif ibn Sarim. Device. Gules, a Ukrainian trident head Or, on a bordure argent an orle of chain gules.

The submitter is a knight and thus entitled to display an orle of chain.

Seraphina Quintana. Name and device. Per chevron vert and purpure, a phoenix argent issuant from flames proper.

This name combines an Italian given name and a Spanish byname, an acceptable lingual mix per SENA Appendix C.

Tamsyn l'Argent. Name and device. Per bend sinister purpure and sable, a fleur-de-lys argent and a wagon wheel Or.

Submitted as a *Romani wagonwheel* - a charge found on the modern flag of the Romani people and which is also known as a *dharmachakra* - no evidence was provided, and none could be found, that the submitted depiction was a period version of this motif so we have reblazoned it as a *wagon wheel*.

Tullia Eleonora Domenichi d'Aragona. Name and device. Sable, on a polypus argent a sword vert.

Valentine l'Argent. Name and device. Per bend azure and sable, a fleur-de-lys Or and a scorpion bendwise inverted argent.

The default posture for a scorpion is tergiant, head to chief. When statant or passant, the default is head to dexter. Palimpsest is asked to update Table 5 of the Glossary of Terms.

ANSTEORRA

Brian Ó hUilliam. Household name Brotherhood of the Gilded Crosse.

Brian Ó hUilliam. Household name Sign of the Vaire Crosse.

Brian Ó hUilliam. Household name Bamboo and Zule Brewhouse and badge. (Fieldless) On a bamboo stalk Or a zule sable.

Submitted as *The Bamboo and Zule Brewhouse*, we do not register household names beginning with the article *The*. Therefore, we have removed it for registration.

Rebekah Kleinspielerin. Reblazon of device. Argent, on a bend sable between two roses azure seeded Or a hart lodged palewise argent.

Blazoned when registered in January of 1989 as *Argent, on a bend sable between two roses azure, seeded Or, a hart lodged fesswise argent*, we are clarifying the orientation of the hart per the April 2023 Cover Letter.

ARTEMISIA

Niall Logan. Reblazon of device. Per chevron dovetailed vert and Or, two bees respectant Or marked sable and a pine cone stem to chief proper.

Blazoned when registered in December 2000 as *Per chevron dovetailed vert and Or, two bees respectant and a pine cone stem to chief proper*, we are clarifying the tincture of the bees. Their wings are Or not argent, therefore they are *Or marked sable* not *proper*. A pine cone proper is brown. We ask Palimpsest to update Table 4 of the Glossary of Terms with this definition.

ATENVELDT

Abd al-Qadir ibn Ishaq al-Khalidi. Name and device. Per saltire gules and purpure, a fish skeleton fesswise contourny argent.

Submitted as *Abd al-Qaadir bin Ishaq al-Khalid*, this name is not constructed correctly. First, as submitted the theophoric ism *Abd al-Qaadir* does not use a consistent transliteration system throughout; further, the element that follows *al* should be connected to it by a hyphen. Making the transliteration consistent and adding the hyphen results in the ism *Abd al-Qadir*. Second, the patronymic marker *bin* is Turkish in our period, not Arabic, and may not be used in Arabic name construction. [L/ucjan Maciej Niemira, 01/2023, A-Atenveldt] Third, members of a tribe based on the name *Khalid* would be called *al-Khalidi*. Making all of these changes results in the name *Abd al-Qadir ibn Ishaq al-Khalidi*, and we have registered it accordingly.

Arabella Delariviere. Name and device. Sable, in fess a roundel between an increscent and a decrescent argent, a ford proper.

Diana the Dreamweaver. Reblazon of device. Per bend argent and purpure, a butterfly sable and a weaver spider Or.

Blazoned when registered in February 1981 as *Per bend argent and purpure, a black Diana filigree butterfly [Argynnis diana] and a hump-backed orb weaver spider [Areana gemmoides] proper*, we are clarifying the tincture of the charges.

Fabio Komnenos. Exchange of device and badge. Or, a bend gules between three Latin crosses in bend and two more in bend sable, on a chief gules a cat couchant Or.

The submitter's prior device, *Per bend argent and sable, a horned death's head and a bordure counterchanged*, is retained as a badge.

Farulfr Taðksson. Name.

Fergus Mac Charles. Name.

Submitted as *Fergus mac Charles*, this name is not constructed correctly. No evidence was provided of *Charles* in the Gaelic naming pool, and the construction *mac X*, where *mac* is lowercase, is only used in Gaelic. Alisoun Metron Ariston redocumented this name as a double English byname *Mac Charles*. We have therefore capitalized the *m* for registration.

The submitter may be interested to know that *Fergus MacCharlie* is an attested period Scots name. If they prefer this form, they may make a request for reconsideration.

Fionnghuala inghean Ghearailt. Name.

Submitted as *Fionnghuala inghean Ghéarailt*, the marking is a post period addition. We have therefore removed it for registration.

Isabel Vargas de Huancavelica Inca. Name (see PENDS for device).

Isadora de Fey dit Lebeau. Name.

This name combines a Spanish given name with a double French byname, an acceptable lingual mix per SENA Appendix C.

Joaquín Velasco. Name change from Qara Keirije.

The submitter's previous name, *Qara Keirije*, is retained as an alternate.

Kathryn of Sundragon. Name and device. Gules, in base a crossbow inverted Or between flaunches argent each charged with an iris gules slipped and leaved vert.

Sundragon is the registered name on an SCA branch.

Kermeyne du Rosier Doré. Name and device. Per bend sinister azure and purpure, a rose and three card piques Or.

Submitted as *Kermeyne Doré Rosier*, this name is not constructed correctly. The submitter indicated that the meaning "melody/song of golden rose" was most important. Brunissende Qui s'y frotte s'y pique was able to construct a byname meaning 'of the golden rosebush' in French as *du Rosier Doré*. We have therefore corrected the French grammar for registration.

The submitter might be interested to know that the accent on the word *Doré* only appears late in our period; for most of our period this name would have been written as *du Rosier Dore*. If they are interested in this name, they may make a request for reconsideration.

Nice cant!

Loch Salann, Barony of. Reblazon of badge for Clan Shiotani. Argent, a shrimp palewise embowed, in base two mountains wreathed with mist sable.

Blazoned when registered in August 1984 as *Argent, a shrimp embowed, in base two mountains wreathed with mist sable*, we are clarifying the orientation of the shrimp. Like prawns, the default posture for shrimp is fesswise with its head to dexter. This shrimp is palewise, not fesswise.

Mór inghean Sláine. Name.

The submitter requested authenticity for Irish. This name does not meet that request. All of the elements of this name are authentic from the mid-13th century onward, but they would not have been arranged this way. We allow the registration of matronymics for purposes of our rules, but we currently have no evidence of their use by non-royalty during our period.

Norman mac Aonghuis. Name and device. Purpure, a bull passant argent, on a mount Or a lozenge sable.

This name combines an English given and a Scottish Gaelic byname, an acceptable lingual mix per SENA Appendix C.

Órlaith Rowe. Name.

This name combines an Irish Gaelic given name and an English byname, an acceptable lingual mix per SENA Appendix C.

Pavel of Plze{nv}. Name.**Raven Mayne.** Reblazon of augmentation. Argent semy of ravens volant sable, for augmentation on an inescutcheon in canton azure, a sun in splendor and in base an artist's paintbrush fesswise Or.

Blazoned when registered in June of 2021 as *Argent semy of ravens volant sable, for augmentation on an inescutcheon in canton azure, in pale a sun in splendor and an artist's paintbrush fesswise Or*, we are clarifying that on the inescutcheon the sun is the primary charge and the brush secondary.

Raven Mayne. Badge. Azure, a sun in splendor and in base an artist's brush fesswise Or.

This badge conflicts with the badge of Paul of Sunriver, *Azure, a compass star Or*. There is no difference granted between a compass star and a sun, leaving only a single DC for adding the artist's brush. It also conflicts with the device of Wendryn Townsend, *Azure, a sun in glory Or*, with a single DC for adding the artist's brush. However, the same is true of the inescutcheon used in this submitter's augmentation, reblazoned elsewhere on this letter as *Argent semy of ravens volant sable, for augmentation on an inescutcheon in canton azure, a sun in splendor and in base an artist's paintbrush fesswise Or*. As this motif was registered to the submitter despite those conflicts existing at the time of registration, this badge can be registered under the Existing Registration Allowance.

Rowan Blackflame. Reblazon of device. Or, on a flame sable atop a dexter hand fesswise reversed, palm to chief, azure a scorpion inverted argent, all within a bordure gules.

Blazoned when registered in August 1988 as *Or, a dexter hand fesswise reversed couped azure holding a flame sable charged with a scorpion inverted argent, all within a bordure gules*, we are clarifying the charge groups. The hand is a maintained secondary charge, not the primary charge.

Sorcha ingen Riocaird. Name.**Toke Jurgensson.** Name (see RETURNS for device).

The submitter requested authenticity for 13th century Swedish. This request was not noted on the Letter of Intent. Kingdoms are reminded that all authenticity requests must be summarized on the Letter of Intent to ensure a name does not need to be pended for further research. Fortunately, Lilie Ragged Staff was able to identify this request in commentary with enough time for commenters to respond.

This name does not meet that request. We currently do not have evidence of these elements in Sweden before the 14th century. The submitter might be interested to know that while the submitted spelling is authentic for Sweden circa 1500, the spelling *Thoke Juriosson* would be plausible for the 14th century. If they are interested in this spelling, they may make a request for reconsideration.

Viktor rauðskeggr. Name and device. Per saltire gules and sable, in fess a bear rampant regardant and a lion rampant to sinister regardant argent.

The submitter documented the given name *Viktor* from "The Old Norse Name" by Geirr Bassi. While this name does appear in that source on page 16, it appears to be in error. No evidence outside of this source could be found in support of this given name for the Viking era in Old Norse. Therefore, we will

no longer continue to register *Viktor* as a masculine given name in Old Norse. See the Cover Letter for more information.

Fortunately, Alisoun Metron Ariston documented the 14th century Russian name *Viktor* in Wickenden. This name may be combined with an Old Norse byname, as names from these two language groups may be combined throughout our period as long as the elements are dated within 300 years as is the case here. Therefore, we may register this name as submitted.

This name combines a Russian given name and an Old Norse byname, an acceptable lingual mix per SENA Appendix C.

ATLANTIA

Blazoned when registered in August 1989 as *Or, a tortoise tergiant palewise proper, shelled vert, between three mullets of eight points azure*, we are clarifying the tincture of the tortoise. It has a vert shell with the head and legs being brown. For conflict purposes, the tortoise is vert, which we ask Morsulus to note in the O&A. The tortoise is in its default orientation.

Tangwen Ffraeth. Reblazon of device. Argent, on a chevron purple between three oak leaves in pall, stems outwards, vert, a hind courant palewise argent.

Blazoned when registered in November of 1989 as *Argent, on a chevron purple between three oak leaves in pall, stems outwards, vert, a hind courant fesswise argent*, we are clarifying the orientation of the hind per the April 2023 Cover Letter.

Walter de Witte. Reblazon of badge. (Tinctureless) The Uncial sans-serif letter "M" inverted and a quill pen fesswise interlaced.

Blazoned when registered in August of 1981 as *(Tinctureless) The Uncial sans-serif letter "M" inverted interlaced with a quill pen fesswise*, we are reblazoning to clarify that the two charges are co-primary.

AVACAL

Eirik of the Two Ravens. Badge for Volkwin Walraven. Per pale offset gules masoned argent and sable, in sinister canton a raven rising argent.

This badge does not conflict with the badge of Drueta de la Rosa, *(Fieldless) A rooster rising argent*. There is a DC for adding the field, and at least a DC between a rooster rising and a raven rising.

There is a step from core practice for charging a field with an offset line of division.

CAID

Archimedes di Cellini. Device. Per chevron vert and argent, two rats statant and two snakes entwined counterchanged.

Augutin Darkwater. Device. Argent goutty de sang, a gore sable.

Submitted as *Argent, seven gouttes and a gore sable*, there is no default arrangement for seven charges. Evidence was provided of period blazon explicitly enumerating seven (or more) charges, but in all cases the charges were in a clear arrangement such as three, three, and one. As no evidence was provided for blazoning the number of charges in *semy* arrangement, we also decline to do so here.

The submitter has permission to conflict with the armory of Caelin on Andrede, *Argent goutty de sang*.

Dominica Angel. Badge. (Fieldless) A vol per pale argent and purple.

This badge does not conflict with the device of Hope Baldwin, reblazoned elsewhere on this letter as *Per pale purple and argent, a pair of wings in lure counterchanged*. By longstanding precedent we grant difference for orientation between a *vol* and a *pair of wings in lure* [Miles Stockton, 11/2010, A-Artemisia].

Michael Roy Mor. Badge (see RETURNS for household name). (Fieldless) A badger rampant Or maintaining a musket proper.

A *musket proper* is "barreled sable, stocked brown". Firearms were also found in period armory with grey barrels, which would be blazoned as "a grey iron <firearm> proper". We direct Palimpsest to update Table 4 of the Glossary of Terms.

[Epeira diadema]*, we are clarifying the tincture of the spider which is sable marked Or. For conflict purposes, the spider is half sable and half Or, which we ask Morsulus to note in the O&A. Whyt Whey, Canton of. Household name Companie of Grate Whyt Whey (see PENDS for branch name change).

Submitted as *Companie of the Grate Whyt Whey*, this name is not constructed correctly. The substantive element *Grate Whyt Whey* is a compound placename. Household names based on the pattern *X of placename* generally do not use the article *the* before the place name. We have therefore removed it for registration.

Commenters questioned whether or not this name presumed upon the New York City street *Broadway* and its nickname 'The Great White Way'. The standards for presumption are high. A not insignificant number of persons asked had not heard of this nickname for Broadway, and the nickname does not appear to be prevalent anywhere but in America. Therefore, this name falls short of the global recognition that we require to protect a place from presumption. In addition, this name does not meet the criteria set forth in the Administrative Handbook III.A.10 which says in part, "... a branch cannot use the name of a significant location (a town or county, for example) within its borders... A small change in the name is sufficient for registration, such as the addition of a syllable or a spelling change that changes the pronunciation." The nickname for Broadway is *The Great White Way*. Removing the article *The* qualifies as a small change in the name as defined by the rule. Accordingly, this name may be registered as modified.

This item was submitted under the branch name *Appleholm, Canton of*; as that name is being pended, the item is registered under the existing branch name.

LOCHAC

Jessica Wynter of Fearn Abbey. Name change from Jessica of Fearn Abbey.

The submitter's previous name, *Jessica of Fearn Abbey*, is retained as an alternate.

Tosti Vicherovich Bogolyubskiy and Thomas de la Mer. Joint badge. (Fieldless) A bell azure within and conjoined to a chaplet of sunflowers Or seeded purple slipped and leaved vert.

The spider is in its default posture, tergiant, head to chief.

Blazoned when registered in April 1980 as *Azure, a spider extended depending from a spiderweb throughout in chief Or*, we are clarifying the charge groups. The spiderweb is the primary charge, the spider is a secondary charge. In addition, the spider is inverted — that is, tergiant with its head to base.

Magnus Bogsveigir. Device. Per fess vert and sable, on a fess between a bow fesswise and a sheaf of arrows argent a wolf courant sable.

This device was pended on the February 2023 LoAR for redraw to remove the thin-line cotising around the wolf.

Meridies, Kingdom of. Badge for Scribal Guild of Meridies. (Fieldless) An uncial letter "M" sable maintaining an interlaced pen fesswise argent.

This badge does not conflict with the badge of Walter de Witte, reblazoned elsewhere on this letter as *(Tinctureless) The Uncial sans-serif letter "M" inverted and a quill pen fesswise interlaced*. Though there is no difference between what is essentially a "W" and an "M", in Walter's badge the two charges are co-primary and in this submission the feather is equivalent to a maintained secondary.

Scribal Guild of Meridies is a generic identifier.

MIDDLE

Beatríz Estevan de las Serras. Device. Azure, a pale Or between two penguins addorsed proper.

Deonysia de Rye. Badge. (Fieldless) A bat-winged domestic cat sejant contourny azure winged sable.

Deonysia de Rye. Augmentation of arms. Per chevron azure semy of ears of rye Or and argent, a sea-dragon azure and a bordure counterchanged argent and azure, and for augmentation on a canton argent, a compass rose per pale sable and Or.

(Fieldless) A compass rose per pale sable and Or is registered to Northshield as a standard augmentation. Fieldless badges designated as standard augmentations can be used on augmenting cantons, escutcheons, or any other augmentation context where they appear as an independent display, whether on a plain or divided background, without needing permission to conflict.

We note that despite three-quarters of the canton's bordure having no contrast, it manages to maintain identifiability, with the remaining quarter having good contrast, meeting the standard set out in the precedent: "Going forward, we will consider augmentations on a case-by-case basis when they have zero contrast across most of their edge, but which nonetheless maintain identifiability." [Elis Godbeare, 05/2022, A-Northshield]

TRIMARIS

Ada Huntrecombe. Name.

The submitter requested authenticity for "13th-century Scottish feminine". This name meets that request.

Caroline de la Colline. Name (see RETURNS for device).

Submitted as *Caroline de la Collines*, this name is not constructed correctly. The French article *de la* is singular, but the French noun *Collines* is plural. No suitable documentation could be found for combining a singular article with a plural noun in the French language. Alys Ogress was able to construct the French byname *de la Colline* 'of the little hill'. We have therefore removed the terminal *s* as this is the smallest change we can make for registration.

The submitter might be interested to know that the byname *des Collines* would be a plausible French byname meaning 'of the little hills'. If they prefer this byname, they may make a request for reconsideration.

Dafydd ap Bleiddudd. Reblazon of device. Or, on a bend bretessed azure between a boar rampant and an escarbuncle gules three pheons palewise argent.

Blazoned when registered in April of 1989 as *Or, on a bend bretassy azure between a boar rampant and an escarbuncle gules, three pheons argent*, we are clarifying the orientation of the pheons.

F{a-}khire of Wyvernwoode. Name and device. Per chevron inverted sable and gules, a compass star and a natural antelope's head cabossed argent.

Submitted as *Fâkhire of Wyvernwoode*, the circumflex on the *a* in the given name is modern. The given name *Fakhire* was documented from Ursula Georges' article "Some Persian Feminine Names and Etymologies from the Timurid Dynasty". Letters in this article that should have a macron over them had to be represented by a circumflex when this article was published. [Shirin-i Mihr, 09/2022, A-Meridies] Therefore, we have changed the diacritical marking from a circumflex to a macron.

Wyvernwoode is the registered name of an SCA branch.

There is a step from core practice for the use of a compass star.

Gunther von Waldherz. Reblazon of device. Argent, on a bend vert between two mullets of seven points sable a stag trippant guardant palewise argent, a bordure quarterly Or and vert.

Blazoned when registered in May of 1993 as *Argent, on a bend vert between two mullets of seven points sable, a stag trippant guardant fesswise argent, a bordure quarterly Or and vert*, we are clarifying the orientation of the stag per the April 2023 Cover Letter.

Juniper Renard. Name.

Ragnailt inghean mhic Sheáin. Device change. Azure, a clew of yarn argent transfixd by two double-pointed knitting needles in saltire Or, on a chief argent two hummingbirds hovering respectant vert.

The purple markings on the hummingbird are an unblazoned artistic detail and do not contribute towards complexity or difference.

The submitter's previous device, *Gules, a cross couped between in bend sinister two clarions bendwise sinister, a bordure embattled Or*, is released.

Sorcha na Trí Abhainn. Name and device. Or, a triquetra sable and in base three bars wavy azure.

Submitted as *Sorcha an Trí Abhainn*, use of the element *an* in this name is incorrect. For a byname meaning 'of the Three Rivers', the singular *an* becomes plural *na* as there are multiple rivers. We have therefore made this change for registration.

WEST

Alan of Rowan. Reblazon of device. Per bend sinister sable and Or, in bend a brown scorpion bendwise sinister and a rowan tree eradicated proper.

Blazoned when registered in March 1978 as *Per bend sinister sable and Or, in dexter chief a scorpion and in sinister base a rowan tree eradicated, both proper*, we are clarifying the tincture of the scorpion. The scorpion has a brown body and tan or Or appendages. Morsulus is directed to add this description to the O&A.

Alice of Briarbrook. Reblazon of device. Per bend sinister vert and azure, in dexter chief a fiddler crab maintaining in its sinister claw an acorn Or.

Blazoned when registered in August 1979 as *Per bend sinister vert and azure, in dexter chief a fiddler crab tergiant proper*, the crab is maintaining an acorn which was not mentioned. The crab is in its default posture, tergiant, and is Or.

Beatrix Opitzer. Device. Azure, a dragon ermine maintaining a bottle gourd slipped and leaved Or.

This device was pended on the February 2023 LoAR for redraw to increase the size and decrease the number of ermine spots.

As noted when this was pended, this is the defining instance of the *bottle gourd*, also known as the calabash, a fruit which has been cultivated by humans for millennia. Examples of this fruit depicted in the *Grandes Heures d'Anne de Bretagne* can be found in the article "First Known Image of Cucurbita in Europe, 1503-1508" by Harry S. Paris, et al, *Annals of Botany*, 98(1), July 2006, pp. 41-47 (<https://academic.oup.com/aob/article/98/1/41/240153>).

Clarissa of Red Crab Manor on the James. Reblazon of device. Argent, a crab gules, in sinister chief an escallop Or chased gules.

Blazoned when registered in January 1980 as *Argent, a crab gules, in sinister chief an escallop gules chased Or*, the escallop is Or, not gules.

THE FOLLOWING ITEMS HAVE BEEN RETURNED FOR FURTHER WORK:**AN TIR**

None.

ANSTEORRA

Elina Ulfsdottir. Device change. Vert, a bend sinister sable fimbriated, overall a wolf's head erased contourny argent.

This device is returned for conflict with the device of Aalina Godwyn de Coteswaud, *Vert, a bend sinister sable fimbriated and overall a stag trippant argent*. There is only a single DC for the type of overall charge.

There is a step from core practice for the use of an overall charge surmounting a fimbriated ordinary.

ARTEMISIA

None.

ATENVELDT

Toke Jurgensson. Device. Vert, a narwhal haurient embowed argent and a ford proper.

This device is returned for conflict with the device of Gest Grimsson, *Vert, a narwhal hauriant embowed argent*. There is a single DC for adding the ford.

ATLANTIA

Heloise de Bruyeres. Alternate name Fouque Guillotin.

This name is returned for offense via SENA PN5C which says in part, "Even when no name phrase is itself offensive, an entire name may be offensive. ... Likewise, a name that creates an offensive idea through a combination of words is not allowed." Neither of these name elements is offensive on its own. However, the combination of name phrases here with their common pronunciations creates an offensive idea; correctly pronounced, this name sounds like the English phrase 'fuck guillotine'. The guillotine has a long, bloody and horrifying history; it did not stop being a tool for execution in France until the mid-twentieth century. Therefore, this name meets the standards laid out in SENA PN5C and it must be returned.

AVACAL

None.

CAID

Michael Roy Mor. Household name Clan MacMichel.

This name is returned for conflict with the registered *Clan MacMitchell*. Even though the elements *Michel* and *Mitchell* are visually different per SENA PN3C4, there is no aural difference at all in the Scots language. In fact, the spellings *Michel* and *Mitchell* were often used interchangeably for the same name. As this visual change is not significant enough to provide clear difference between these names, we are forced to return this one.

CALONTIR

None.

DRACHENWALD

None.

EAST

Rónán fitz Robert. Badge. Argent, a dolphin azure and in base a wooden rod proper.

This badge is returned for conflict with the device of André of Stormhold, *Argent, a whale naiant azure*. There is a DC for adding the secondary rod, but per SENA Appendix M1b there is no difference between a heraldic whale and a heraldic dolphin.

LOCHAC

None.

MERIDIES

None.

MIDDLE

None.

NORTHSHIELD

None.

OUTLANDS

None.

TRIMARIS

Caroline de la Colline. Device. Sable, upon a sun Or a phoenix azure enflamed gules issuant from a nest proper.

This device is returned per SENA Appendix I3 for having two different tertiary charge groups on the same underlying charge. The nest is small enough in comparison to the phoenix that it is the equivalent of a maintained charge.

WEST

THE FOLLOWING ITEMS HAVE BEEN PENDED UNTIL THE October 2023 LAUREL MEETING (OR AS NOTED):

AN TIR

Morgan of Aberystwyth. Transfer of badge to Briony Kortsdottir. Gules, a caltrap Or.

This transfer is pended until the June 2022 LoAR to allow time to process the acceptance.

This was item 13 on the An Tir letter of February 15, 2023.

ATENVELDT

Isabel Vargas de Huancavelica Inca. Device. Per saltire argent and Or, a jaguar statant guardant sable.

This device is pended to redraw the jaguar to more closely match the period examples.

This is the defining instance of a jaguar in Society armory. The jaguar is well-attested in pre-Columbian artwork.

This was item 7 on the Atenveldt letter of February 25, 2023.

EAST

Appleholm, Canton of. Branch name change from Whyt Whey, Canton of.

This branch name change is pended to allow commentary on the issue of retaining items as *Ancient Branch Name*. This would work similarly to how we retain *Ancient Arms* and would allow a group to retain their old name to protect it from conflict without needing to register it as a household name. We look to the June 2000 Cover Letter for guidance; branches were not able to retain old devices as badges because badges may not have laurel wreaths. However, branches wanted to still be able to protect these devices from conflict. Similarly, some branches may prefer to be able to protect their previous names from conflict.

This was item 2 on the East letter of February 25, 2023.
