

Errata

These are corrections to previous LoARs.

October 1990

Caid

Timoteo Hilario e Fraga. Name change from Timoteo Hilario da Frágua do Prado and device. Potent in point, a dragon passant regardant vert and on a chief argent three brown scallops inverted proper. (Lyropectin subnodosus).

Listed on the Caid June 1990 LoI as a "new/Appeal of Caid College of Heraldry change of name", somehow this was erroneously reported on the October 1990 LoAR as a new name, returned, and with a holding name assigned. The submitted (and returned) name was *Timoteo Hilario e Fraga da Vega*. As this error is only now being noticed, his previous name *Timoteo Hilario da Frágua do Prado* is retained as an alternate name.

February 1991

Outlands

Hancarata Aethnen filia Cuneddae. Name change from Agharet Aethnen filia Cunedae.

When her name was changed, the LoAR spelled her previous name as *Angharad Aethnen filia Cuneddae*, while it had been originally registered as *Agharet Aethnen filia Cunedae*.

October 1991

Trimaris

Colfre Signy Tryggvadottir. Name appeal from Signy Colfre Tryggvadóttir.

When her name appeal was accepted, the LoAR neglected to list the previously registered name, released when the appeal was registered.

May 1993

West

Styphan ap Owain. Holding name change from Steven of Mountain's Gate.

When his name change was registered, the LoAR inadvertently spelled the old name as *Stephen*. His previous name was a holding name.

June 1994

Drachenwald

Torbjörn Davidsson Ståklunga. Name reconsideration from Torbjorn Dawidsson Staalklinga.

On the June 1994 LoAR, Laurel registered without comment a revised spelling of his name, originally registered in November 1992. As it happens, the 1994 submission was a name appeal, asking Laurel to return his name to the originally submitted spelling. We are therefore clarifying that this was not an additional new name, but a changed spelling of his primary name. His previous name, *Torbjorn Dawidsson Staalklinga*, is released.
