(this was passed because we have a precedent for the usage of the "Brown Bear proper" in SCA heraldry already.)

Edwin of Sthogaenam: Quarterly per saltire purpure and counter-ermine, on the breast of an Eagle displayed argent, a Latin Cross gules;
(this was passed because the former objections to this device were proved mistaken.)

note: Rejected devices may be appealed to the Laurel King of Arms by any member of the Imperial College. This must be done within 60 days of the initial rejection, however, and good, solid documentation had better be forthcoming!

ADDENDA: (passed)
