These are corrections to previous LoARs.

When his name was registered, the LoAR neglected to note that this was a change of holding name.

July 1998

Catelin Mactaggart. Name correction from Catelin Mackinsagart.

When this name was registered, the LoAR noted that it was a correction from the previously-registered *Catelin Mackinsagart*, but it wasn't listed as an errata or as a name correction. We are correcting the mistake; her previous name *Catelin Mackinsagart* is released.

June 1999

East

Solomon Gerdawr. Name change from Solamh Siridhe.

When his name was registered, the LoAR listed it as a new name instead of as a name change. His previous name, *Solamh Siridhe*, is retained as an alternate name.

April 2004

Lochac

Saint Crispin, College of. Device. Azure, a seahorse within a laurel wreath and on a chief inverted argent a lymphad gules.

This registration should have appeared on the April 2004 LoAR. Instead, it was unfortunately combined with the Canton of Cluain, whose name and device were also pended, but which were listed on the LoAR as Cluain's name and Saint Crispin's device. This was partially corrected on the Laurel Letter of Pends and Discussion for July 2004, where it listed Cluain's correct device and stated "The device for the other branch was registered in May 2004 under the correct branch name." However, there is no mention on the May 2004 LoAR of Saint Crispin's device either. Cluain's name and correct device were accepted on the January 2005 LoAR, but Saint Crispin's device fell entirely through the cracks.

August 2011

When his name was registered, the Letter of Intent neglected to note that it was actually a name change. The kingdom later caught the error and submitted the change on their January 2016 Letter of Intent. The submitter's previous name, *Niccolo Giovanni*, is released.
